

Dear Sirs,

I am a resident/visitor of East Cambridge and I am unhappy that the DCR North Point Park is no open. I have passed this park many times and see a beautiful park of rolling hills and trees and play structures, but no people.

The park has been in this condition for over three years with almost no change. As new buildings are developed all around this section of town, it is critical to have parks for people to walk and play. I have heard that there are issues between the state and the contractors. I understand problems need time to be resolved, but over three years is absurd.

Please finish the work and release the park to whom it belongs, the people of Massachusetts.

Regards, _____ name

_____ address
